Alderholt Community Fund Decision Matrix

Simply go through each assessment criteria and pick which of the 3 answers best describes the application (1, 2 or 3). Then take this number and multiply it by the weighting figure in the last column. Once you have gone through all of the criteria, add up the totals to determine the project's overall score. Max score = 300.

	Criteria / Score	1	2	3	Weighting	Calculated Score
1	**Run by the community.** The application demonstrates the scheme will generate community involvement, engagement and ownership throughout.	The application shows no evidence that the 'community' would be involved in the project's set up and operation.
